

INDUSTRIAL VACCU CLEANERS

The Wet and Dry Industrial Vacuum Cleaner series, available in five variants—Build-22DT, Build-30DT, Build-40DT, Build-55DT, and Build-75DT—offers a robust and versatile solution for heavy-duty cleaning tasks across industrial settings. These models are engineered to handle both wet and dry debris, making them ideal for diverse cleaning needs in manufacturing units, warehouses, workshops, and construction sites.

Each variant is designed to tackle tough spills, dust, and debris with powerful suction and durability. Whether it's liquids, dust, or solid waste, these vacuum cleaners can efficiently clean all types of surfaces, providing high performance and convenience. The compact design and easy maneuverability allow for flexible cleaning in tight spaces, while the rugged construction ensures longevity even in demanding environments.

From smaller spaces requiring the compact Build-22DT to larger areas best suited for the high-capacity Build-75DT, these vacuum cleaners offer tailored solutions to meet various industrial needs. The Wet and Dry Industrial Vacuum Cleaner series is the ultimate choice for efficient, reliable, and powerful cleaning across all industrial applications.

Technical Data

Model	Build-22DT	Build-30DT	Build-40DT	Build-55DT	Build-75DT
Rated Voltage (V)	380	380	380	380	380
Power Consumption (W)	2200	3000	4000	5500	7500
Working Suction (kpa)	22	26	28	32	34
Air Flow m3/h	320	380	410	530	540
Filtering Accuracy	0.3	0.3	0.3	0.3	0.3
Filter Area	52800	52800	52800	52800	52800
Machine Noise	69	72	72	74	75
Suction Diameter	40-60	40-60	40-60	40-80	40-80
Dust Bucket Capacity	100L	100L	100L	100L	100L
Cleaning Method	Manual Air Blow	Manual Air Blow	Manual Air Blow	Manual Air Blow	Manual Air Blow
Machine Weight	88	95	103	118	128
Outer Box Size	1070X620X1200	1070X620X1200	1070X620X1200	1070X620X1200	1070X620X1200
